

**DIGITAL
SIGNAGE
SOLUTIONS**

BELKIN®

Digital signage is everywhere you look. Digital displays continue to grow in size and fall in price, making digital signage increasingly attractive. More and more venues are implementing, upgrading, and expanding their digital signage, and they demand high-quality, high-performance connections. BELKIN products deliver today's cutting-edge digital content over a greater area, with maximum uptime.

CONNECTION OPPORTUNITIES

BELKIN connectivity solutions are ideal for point-to-point digital signage installations in locations like these:

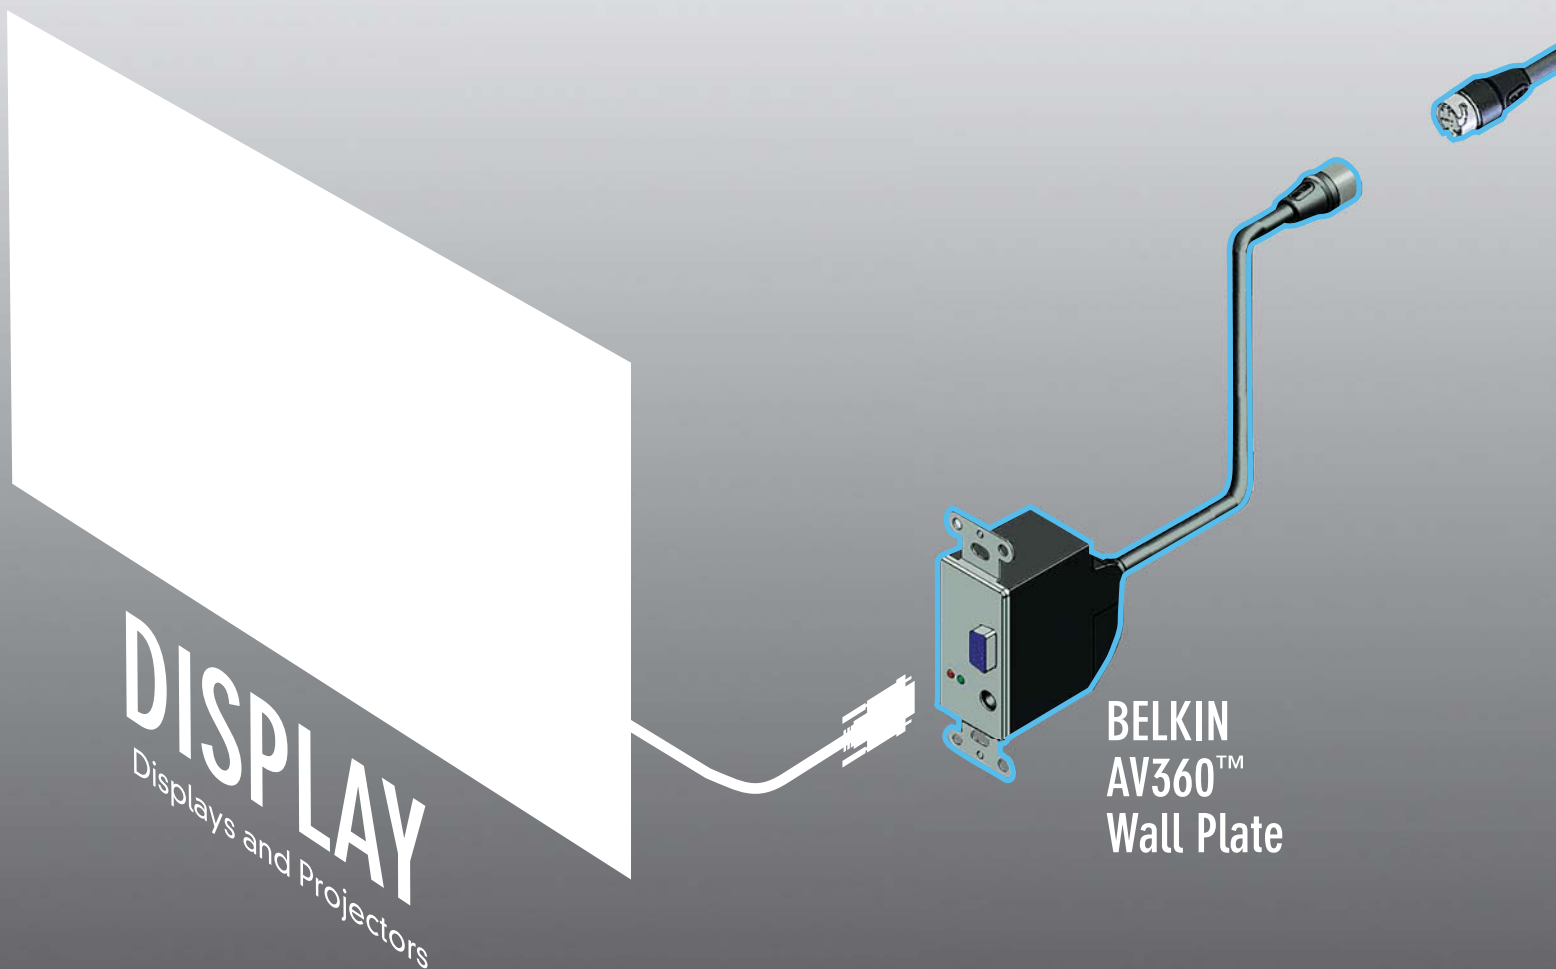

- School Classrooms and Auditoriums
- Audiovisual Installations
- Business Conference Rooms
- Hospital Waiting Rooms
- Government Facilities
- Retail Environments
- Corporate Lobbies
- Hotel Ballrooms
- Health Clubs
- Restaurants
- Bars
- Home Theaters
- Multimedia Rooms

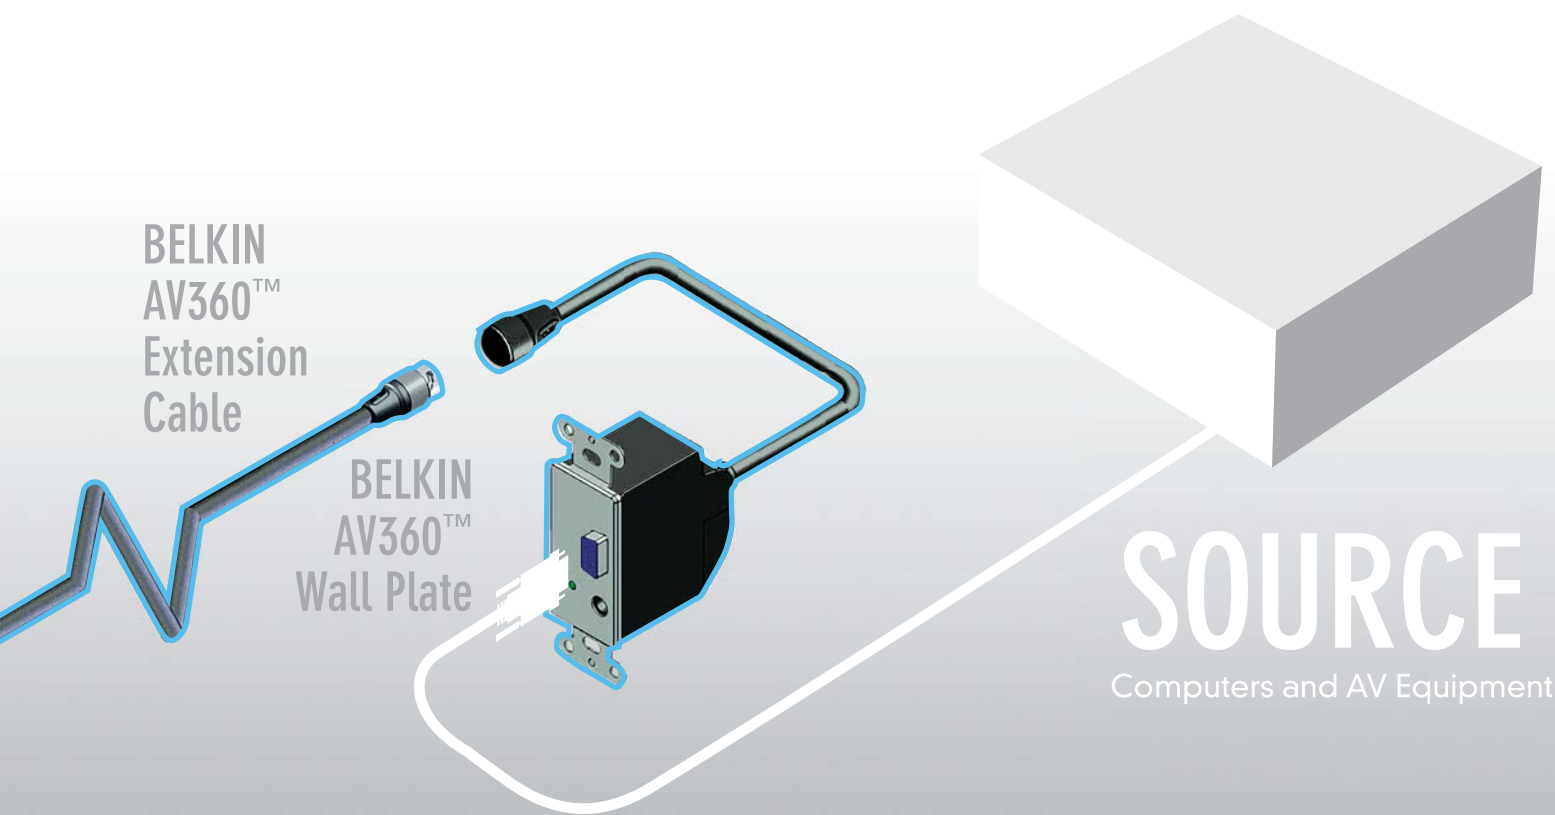

THE BELKIN ADVANTAGE

By nature, digital signage is highly visible and highly sensitive. Uptime is crucial; downtime is unacceptable. The cable connection is the most fundamental component of the installation—and it's the last thing you should have to worry about.

When it comes to moving digital content from place to place, there's no brand that's more respected or more reliable than BELKIN. We've been connecting high-end electronics and building high-performance networks for 25 years.

Depend on BELKIN for professional, reliable AV infrastructure.

TYPICAL AV360™ CONFIGURATION

PRODUCT PERFORMANCE

BELKIN audiovisual extenders and cables are designed and manufactured for the highest standards of performance—carrying more data over greater distances at higher speeds. This added reach makes it possible to cover a much wider area in a single installation.

EASY INSTALLATION

Smart, modular components help take the effort out of installation. A revolutionary 360-degree cable pulling cap threads narrow conduits and sharp turns, and the small diameter makes cables easier to pull over long distances.

RELIABILITY

Extensive testing and quality controls result in extremely durable, dependable products, backed by an industry-leading three-year warranty. Reliable connections are a vital part of any digital signage installation.

AV360™ Connectivity Solution

MODULAR AUDIOVISUAL CABLE SYSTEM

- Unique 360-degree pulling cap withstands 90 pounds of pulling force and enables sharper turns.
- Thinner, lighter extension cables allow easier installation over greater distances.
- Advanced cable and wall plate designs deliver high-resolution signals farther, faster.
- Modular, color-coded designs provide plug-and-play simplicity.

CAT5e Extenders

RELIABLE, HIGH-RESOLUTION AV CONNECTIONS

- VGA extenders deliver 1600 x 1200 resolution up to 300 meters (1000 feet).
- HDMI extenders deliver full 1080p content up to 100 meters (300 feet).
- Proven performance and reliability enable maximum uptime for vital AV systems.
- Efficient design delivers HDMI signals using only a single CAT5e cable.
